AISE Steel Technology Index for 2000

List of Authors

A

Amin, P. R., D'Angelo, M. T. and Maguire, R. J.—"Improving reliability and performance of bar mill rolling stand spindles—a cooperative partnership," Sept., p 52

Anderson, D. L. and Robertson, J. A.—"Tagging of hot bands," June, p 39

Andorfer, J., Auzinger, D. and Hubmer, G.—"Operational experience with VAI-Q Strip: on-line system for controlling hot rolled strip mechanical properties," July/Aug., p 43

Argenta, P. and Vallomy, J. A.—"Continuous steelmaking at Ori Martin of Brescia, Italy," May, p 35

Auzinger, D., Andorfer, J. and Hubmer, G.—"Operational experience with VAI-Q Strip: on-line system for controlling hot rolled strip mechanical properties," July/Aug., p 43

B

Banerjee, K. and Blumenschein, C. D.—"Innovative process for removal of copper, lead and zinc from a steel plant effluent," April, p 27

Banks, T. J.—"Power distribution systems for new UHP furnaces," May, p 47

Belambe, A. R., Evans, D. M., Bovan, M. R. and Whitley, I. G.—"Reheat furnace supervisory control system at Ipsco Inc.," July/Aug., p 33

Berry, J. M.—"Operational considerations in modern downcoiler design," June, p 48

Best, M. H., Rohaus, D. M., Senchur, R. L. and Zowacki, M. P.—"Automatic coal bulk density control at U.S. Steel's Clairton Works," Jan., p 40

Blumenschein, C. D. and Banerjee, K.—"Innovative process for removal of copper, lead and zinc from a steel plant effluent," April, p 27

Borowczak, H., Molfese, R. and Provil, S.J.—"2000 *AISE* Project Excellence Award Winner—TXI Chaparral Steel, Virginia" Dec., p 17

Bougault, T. and Le Gouefflec, G. G.—"Increased performance of a stainless steel annealing and pickling line by oxy-fuel combustion," Nov., p 37

Bovan, M. R., Evans, D. M., Belambe, A. R. and Whitley, I. G.—"Reheat furnace supervisory control system at Ipsco Inc.," July/Aug., p 33

Brell, S. A. and Pask, A. J.—"Reducing spray blockage on BHP's slab caster," May, p 43

Bridges, R. E., Lewis, C. P., Groh, D. and Tischler, G. M.—"Pulse radar sensors applied to horizontal strip annealing furnace catenary control," Oct., p 38

Brunner, M.—"Latest in-line laser gauging systems for hot rolling of rod, bar and pipe," Sept., p 35

Budde, D. and Muller, H. J.—"New developments in wire rod mills," Sept., p 46

Buder, S. K. and Kricker, U. M.—"Training simulator—an advanced tool for improving caster operations," Dec., p 41

Buss, W. E., Toll, H. and Worberg, R.—"Developments in cokemaking in Europe," Jan., p 47

C

Cameron, A. M. and Felderman, C. J.—"Interfacing combustion technology with the electric furnace process," May, p 32

Carss, S., Meyer, G. A., Nicolosi, J., Ridgeway, K. and Scarlett-Carr, J.—"On-line dust analysis for metals using x-ray fluorescence for process monitoring in BOF systems," Oct., p 36

Cooper, G. C. and Snowdon, B.—"Developments in continuous flux feed systems for continuous casters," May, p 40

Corallo, V. and Payling, A. G.—"An integrated system for online roll performance and quality evaluation," June, p 52

Craig, I. and Lightfoot, R.—"Offgas combustion system design," May, p 23

Czuba, S. J. and Smith, M. A.—"Plant-wide automation at Elgiloy Specialty Metals," July/Aug., p. 37

D

D'Angelo, M. T., Amin, P. R. and Maguire, R. J.—"Improving reliability and performance of bar mill rolling stand spindles—a cooperative partnership," Sept. p 52

Davis, J. J.—"Not accepting crane wheel flange failures," Sept., p 56

Deimek, G.—"Status of Finmet® plant operations at BHP DRI and Orinoco Iron," Nov., p 48

Deloia, T. A., Schurko, R. J. and Grassucci, C. M.—"New tinplate facility at Erdemir," Nov., p 32

Dormire, J. C.—"Benefits of applying regenerative burner technology to continuous reheat furnace," April, p 55

E

Egan, S. J., Lubomirski, M. S. and Fryer, C. A.—"Application of a noncircular arc roll force model to temper rolling," Nov., p 44

Ellis, C. E. and Pruitt, C. W.—"Ten years of maintenance and operation of Jewell-Thompson nonrecovery coke ovens," Jan., p 43

Evans, D. M., Belambe, A. R., Bovan, M. R. and Whitley, I. G.—"Reheat furnace supervisory control system at Ipsco Inc.," July/Aug., p 33

F

Fabris, R. and Hein, O.—"Precision rolling system (PRS)—a new dimension in sizing systems," Sept., p 41

Felderman, C. J. and Cameron, A. M.—"Interfacing combustion technology with the electric furnace process," May, p 32

Fenner, W. J. and Mathews, D. M.—"Graycor safety techniques at U.S. Steel coke-oven gas desulfurization," April, p 47

Ferguson, P. A. and Loveridge, D. N.—"Three-level, neutral-point clamped AC rolling mill drives at Nucor Steel–Berkeley," Oct., p 44

Fittipaldo, J. J.—"Desulfurization plant turnaround: planning and execution," April, p 42

Flemming, G. and Hensger, K.-E.—"Present and future CSP technology expands product range," Jan., p 53

Fonner, F. E.—"Hylsa's Flat Products Div.—fully integrated mini mill with an annual capacity of 2.5 million tonnes," March, p 29

Fonner, F. E.—"Lowering blast furnace coke rates—worldwide focus of 4th European Coke and Ironmaking Congress," Oct., p 56

Fonner, F. E.—"Nucor Steel–Hertford prepares to start up its 1,000,000 ton per year carbon plate mill," Oct., p 29

Fritz, D. M.—"Bethlehem's field of dreams," Nov., p 13

Fritz, D. M.—"Has the import crisis really gone away?" July/Aug., p 30

Fritz, D. M.—"John Correnti: Redefining Birmingham Steel," March, p 19

Fritz, D. M.—"Opportunities and challenges in a dot-com world," July/Aug., p 64

Fritz, D. M.—"SMA public policy position: Restructuring the electric utility industry," May, p 56

Fritz, D. M.—"ULSAB and ULSAC: Upgrading steel's presence in today's automotive applications," May, p 51

Fryer, C. A., Lubomirski, M. S. and Egan, S. J.—"Application of a noncircular arc roll force model to temper rolling," Nov., p 44

G

Generalovic, G. and Shaw, D.—"Use of predictive maintenance technologies at Dofasco's hot mill," Dec., p 36

Ghosh, S., Sengupta, I., Kumar, A., Mukhergee, T. and Muthukumaraswamy, K. M.—"Blast furnace efficiency enhancer for pulverized coal injection," Feb., p 61

Golubev, A. and Paoletti, G. J.—"Partial discharge theory and technologies related to traditional testing methods of large rotating apparatus," Oct., p 48

AISE Steel Technology Index for 2000

List of Subjects

"101 Members Complete 30 Years with *AISE*"—Jan., p 25
"2000 *AISE* Annual Convention and Mini-Expo"—Chicago, Illinois, Nov., p 60
"2000 *AISE* Annual Convention and Mini-Expo"—June, p 25
"2000 *AISE* Officers and Directors"—Jan., p 20
"2000 *AISE* Project Excellence Award Winner—TXI Chaparral Steel, Virginia,"—Molfese, R., Borowczak, H. and Provil, S. J., Dec., p 17
"2000 Standing Committees"—Jan., p 24

A

ABB C-E Services, Inc.—"BOP boiler modifications improve operations and economics"—Velegol, D. A. and Walsh, B. H., June, p 66
Air Liquide—"Increased performance of a stainless steel annealing and pickling line by oxy-fuel combustion"—Bougault, T. and Le Gouefflec, G. G., Nov., p 37
"*AISE* Annual Convention and Mini-Expo, 2000"—Chicago, Illinois, Nov., p 60
"*AISE* Headquarters Staff"—April, p 22
"*AISE* salutes National Engineers Week," Feb., p 9
"*AISE* Steel Foundation"—April, p 21
AISE—"101 Members Complete 30 Years with *AISE*"—Jan., p 25
AISE—"2000 *AISE* Officers and Directors"—Jan., p 20
AISE—"2000 Standing Committees"—Jan., p 24
AISE—"President's interim report—July 2000"—Walsh, J. F., July/Aug., p 3
AISE—"President's Message 2000"— Walsh, J. F., Jan., p 18
AK Steel Corp.—"Automated coil handling and in-process inventory system"—Thieman, M. J. and Murphy, R. L., Nov., p 29
"AK Steel Middletown Works, Blast furnace taphole repair at"—Wise, D. A., Walsh, M.E., Mattus, H. W., Sortisio, P. D. and T. M. Talaat, Feb., p 47
AK Steel Research—"Implementation of a plant-wide control and information system for cold rolling mills using three-tier architecture"—Guo, R.-M., March, p 41
AK Steel—"Changing of the Steel Guard"—McManus, G. J., April, p 60
AK Steel—"It's a Crazy World"—McManus, G. J., Oct., p 25
Algoma Steel—"The new home of electric steelmaking"—McManus, G. J., Feb., p 71
Allegheny Technologies—"Changing of the Steel Guard"—McManus, G. J., April, p 60
Alstom Drives and Controls—"Application of a noncircular arc roll force model to temper rolling"—Lubomirski, M. S., Egan, S. J. and Fryer, C. A., Nov., p 44
Alstom—"Integrated automation solution for 20-hi reversing cold mills"—Michetti, P. C., Lebrun, J.-C. and Maisonneuve, M., July/Aug., p 47
American Iron and Steel Institute—"Lowering blast furnace coke rates—worldwide focus of 4th European Coke and Ironmaking Congress"—Fonner, F. E., Oct., p 56
American Iron and Steel Institute—"Changing of the Steel Guard"—McManus, G. J., April, p 60
American Iron and Steel Institute—"Investing in steel's future"—Ryersbach, R. M., July/Aug., p 71
American Iron and Steel Institute—"It's a Crazy World"—McManus, G. J., Oct., p 25
American Iron and Steel Institute—"New sources of steel imports"—McManus, G. J., Dec., p 49
American Iron and Steel Institute—"Opportunities and challenges in a dot-com world"—Fritz, D. M., July/Aug., p 64
American Iron Reduction—"New decisions on direct reduction"—McManus, G. J., Nov., p 51
AmeriSteel—"New sources of steel imports"—McManus, G. J., Dec., p 49
AmeriSteel—"Where the Action Is"—McManus, G. J., Feb., p 25

"Annual Convention and Mini-Expo, 2000 *AISE*"—June, p 25
"Annual Convention and Mini-Expo, Welcome to the 2000 *AISE*"—Walsh, J. F., Sept., p 65
"Application of a noncircular arc roll force model to temper rolling"—Lubomirski, M. S., Egan, S. J. and Fryer, C. A., Nov., p 44
Applied Fluids, Inc.—"Fluid applicator for noncontact oiling and coating processes"—van Rijn, R., Watt, K. R. and Roessler, R. D., Nov., p 41
"Are the Lights Going Out This Summer?"—McManus, G. J., June, p 72
ATSI, Inc.—"Blast furnace taphole repair at AK Steel Middletown Works"—Wise, D. A., Walsh, M. E., Mattus, H. W., Sortisio, P. D. and T. M. Talaat, Feb., p 47
August Mack Environmental Inc.—"Prevention of Significant Deterioration (PSD): the latest development"—Staehler, C. J. and Sullivan, A., April, p 33
"Automated coil handling and in-process inventory system"—Thieman, M. J. and Murphy, R. L., Nov., p 29
"Automatic coal bulk density control at U.S. Steel's Clairton Works"—Best, M. H., Rohaus, D. M., Senchur, R. L. and Zowacki, M. P., Jan., p 40
"Automatic design of steel manufacturing processes"—Stottler, R. H., March, p 51
"Automatic gauge control—a primer"—Parks, J. C., July/Aug., p 60
"Automation at Elgiloy Specialty Metals, Plant-wide"—Smith, M. A. and Czuba, S. J., July/Aug., p 37
"Automation solution for 20-hi reversing cold mills, Integrated"—Michetti, P. C., Lebrun, J.-C. and Maisonneuve, M., July/Aug., p 47
Automation—"Operational experience with VAI-Q Strip: on-line system for controlling hot rolled strip mechanical properties"—Andorfer, J., Auzinger, D. and Hubmer, G., July/Aug., p 43
Automation—"U.S. Steel Fairfield Works upgrades powerhouse to a distributed control system"—Owen, M. P. and Story, M., July/Aug., p 56
"Automotive applications, ULSAB and ULSAC: Upgrading steel's presence in today's"—Fritz, D. M., May, p 51

B

"Bar and pipe, Latest in-line laser gauging systems for hot rolling of rod,"—Brunner, M., Sept., p 35
"Bar mill rolling stand spindles—a cooperative partnership, Improving reliability and performance of"—Amin, P. R., D'Angelo, M. T. and Maguire, R. J., Sept., p 52
Bar mills—"Precision rolling system (PRS)—a new dimension in sizing systems"—Hein, O. and Fabris, R., Sept., p 41
Bar mills—"Virtual rolling mills: bar and structural mill design and optimization using computer simulations"—Ziaei, S., Sept., p 44
Bar Technologies—"Republic Technologies' blueprint for success"—McManus, G. J., Jan., p 60
Barnes & Thornburg—"Prevention of Significant Deterioration (PSD): the latest development"—Staehler, C. J. and Sullivan, A., April, p 33
Bayou Steel—"A Good Start for the New Century"—McManus, G. J., Jan., p 16
"Becoming a savvy safety leader"—Purcell, C., April, p 53
"Benefits of applying regenerative burner technology to continuous reheat furnace"—Dormire, J. C., April, p 55
Bethlehem Lukens Plate—"Why plate producers are smiling"—McManus, G. J., July/Aug., p 67
Bethlehem Steel—"Changing of the Steel Guard"—McManus, G. J., April, p 60
Bethlehem Steel—"A model to predict average coke-oven charge densities"—Lauricella, C. V., Jan., p 34

Bethlehem Steel—"Not accepting crane wheel flange failures"—Davis, J. J., Sept., p 56
Bethlehem Steel—"Steel earnings in a peak market"—McManus, G. J., Nov., p 27
"Bethlehem Steel, Safety and Environmental Excellence at"—April, p 63
"Bethlehem's field of dreams"—Fritz, D. M., Nov., p 13
BetzDearborn India Pvt. Ltd.—"Blast furnace efficiency enhancer for pulverized coal injection"—Sengupta, I., Kumar, A., Ghosh, S., Mukhergee, T. and Muthukumaraswamy, K. M., Feb., p 61
"BHP DRI and Orinoco Iron, Status of Finmet® plant operations at"—Deimek, G., Nov., p 48
BHP Steel—"Reducing spray blockage on BHP's slab caster"—Brell, S. A. and Pask, A. J., May, p 43
BHP—"What Steel Profits Will Mean"—McManus, G. J., April, p 25
BHP—"Where is Nucor going with strip casting?"—McManus, G. J., Sept., p 60
"Birmingham Steel, John Correnti: Redefining"—Fritz, D. M., March, p 19
Birmingham Steel—"Changing of the Steel Guard"—McManus, G. J., April, p 60
Birmingham Steel—"New decisions on direct reduction"—McManus, G. J., Nov., p 51
Birmingham Steel—"Steel earnings in a peak market"—McManus, G. J., Nov., p 27
"Blast furnace coke rates—worldwide focus of 4th European Coke and Ironmaking Congress, Lowering"—Fonner, F. E., Oct., p 56
"Blast furnace efficiency enhancer for pulverized coal injection"—Sengupta, I., Kumar, A., Ghosh, S., Mukhergee, T. and Muthukumaraswamy, K. M., Feb., p 61
"Blast furnace taphole repair at AK Steel Middletown Works"—Wise, D. A., Walsh, M.E., Mattus, H. W., Sortisio, P. D. and T .M. Talaat, Feb., p 47
"Blast furnace—fourth reline, Dofasco's No. 4"—Zacharewicz, T. J., Hollins, S. J. and Herrell, L., Feb., p 54
Blast furnace—"Will coal be king again?"—McManus, G. J., Oct., p 58
Bloom Engineering Co., Inc.—"Benefits of applying regenerative burner technology to continuous reheat furnace"—Dormire, J. C., April, p 55
Bloom Engineering Co., Inc.—"Implications of skid pipe insulation"—Helbling, T. P., June, p 43
BOC Gases—"Interfacing combustion technology with the electric furnace process"—Cameron, A. M. and Felderman, C. J., May, p 32
"BOF hood life, Superalloys and innovative surface protection extend"—Lai, G., Scandroli, A. and Joiner, D., May, p 28
"BOF shop, Secondary fume control system at Ispat Inland's No. 4"—Rohekar, G. and Shah, R. H., April, p 38
"BOF systems, On-line dust analysis for metals using x-ray fluorescence for process monitoring in"—Meyer, G. A., Nicolosi, J., Ridgeway, K., Carss, S. and Scarlett-Carr, J., Oct., p 36
BOF—"BOP boiler modifications improve operations and economics"—Velegol, D. A. and Walsh, B. H., June, p 66
BOF—"Offgas combustion system design," Lightfoot, R. and Craig, I., May, p 23
"Boiler modifications improve operations and economics, BOP"—Velegol, D. A. and Walsh, B. H., June, p 66
"BOP boiler modifications improve operations and economics"—Velegol, D. A. and Walsh, B. H., June, p 66
Bricmont, Inc.—"Capturing, documenting and releasing operational expertise using computer-based training techniques"—Hathaway, W. B., Dec., p 44
"Bulk density control at U.S. Steel's Clairton Works, Automatic coal"—Best, M. H., Rohaus, D. M., Senchur, R. L. and Zowacki, M. P., Jan., p 40
Byproducts—"Desulfurization plant turnaround: planning and execution"—Fittipaldo, J. J., April, p 42
Byproducts—"Graycor safety techniques at U.S. Steel coke-oven gas desulfurization"— Fenner, W. J. and Mathews, D. M., April, p 47

C

Capital expenditures—"Developments in the North American iron and steel industry—1999"—Samways, N. L., Feb., p 27
"Capturing, documenting and releasing operational expertise using computer-based training techniques"—Hathaway, W. B., Dec., p 44
